

M3000 Instruction manual

Safety precautions:

1. Please do not use overloaded power sources, sockets, or damaged power cords and plugs. Such usage may endanger your safety and could potentially cause a fire. If such situations occur, please promptly inform the sales or after-sales department and request a replacement.
2. Do not attempt to open the product's internals to avoid damaging the product. If any abnormalities occur during product use, please carefully read the product's instructions manual, confirm whether the product is being operated according to normal procedures, or consult with sales and after-sales support.
3. Do not disassemble the equipment or shake it forcefully while it is in operation, as this may cause the equipment to malfunction.
4. Please do not place the product or power adapter in water or expose them to water. Do not use a power adapter that has been exposed to water.
5. When thunderstorms occur or in adverse weather conditions, refrain from operating the equipment or touching the power cords to prevent the risk of electric shock.
6. If the product contains liquid (such as essential oils), please do not invert, tilt, or rotate the product to prevent liquid spillage and damage to the product.

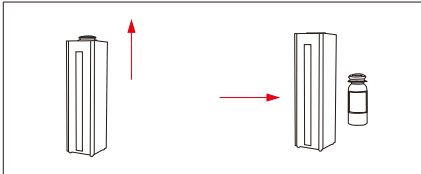

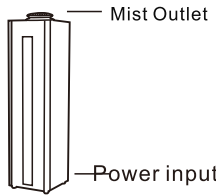

Product Specifications:

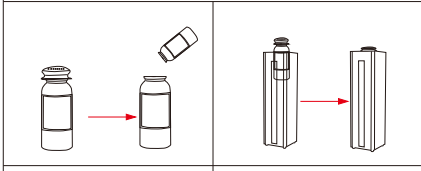

Model	M3000
Essential Oil Capacity	500ML
Coverage Range	1000m ³ --3000m ³
Power	12W
Machine Size	540x160x160mm
Net Weight	6.5kg
Power Supply	AC110V-240V
Operating Noise	≤38dba

The oil consumption is based on the maximum setting of the device, using Shangri-La essential oil for testing. Test conditions include: oil viscosity of 9.5 MPa.S, indoor temperature of 30°C, air humidity of 45%. These specifications are provided for reference only.

Installation Instructions:

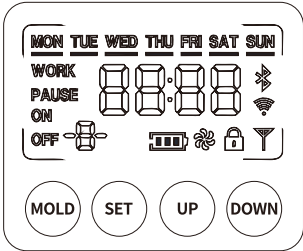

1. Follow the direction of the arrow to pull out the bottle

2. Take out the bottle, turn counterclockwise to open the atomizing head and bottle, and refill liquid to the bottle2.

3. Put the bottle back in, connect the power supply to set the working time

Screen Operation Instructions:

1. After powering on, the LCD screen displays the current hour, minute, day of the week, and whether it is currently within working time. It displays "WORK" (indicating fragrance spraying), "PAUSE" (indicating fragrance pause), or no display "OFF" (indicating it's not running during working hours). Icons such as battery level, fan, Bluetooth/Wi-Fi, and data may be selectively displayed depending on the model.
2. Long press the SET button. The UP and DOWN buttons can change the current system settings for hour, minute, and day of the week.
3. Press the MODE button to set the machine's operating time periods and the fragrance spraying/pause times within those periods. For example: Pressing MODE for the first time enters the setting for the start time of the first operating period. Press SET, UP, and DOWN buttons to set the start hour, minute, and day of the week respectively. Pressing MODE for the second time enters the setting for the end time of the first operating period. Press SET, UP, and DOWN buttons to set the end hour, minute, and day of the week respectively. Pressing MODE for the third time allows setting the fragrance spraying time (WORK). Use the UP and DOWN buttons to set it. Pressing MODE for the fourth time allows setting the fragrance pause time (PAUSE). Use the UP and DOWN buttons to set it.
4. Similarly, follow the steps in 3 to complete the settings for the second, third, fourth, fifth, and sixth operating periods.
5. Long press the MODE button for 5 seconds to restore the initial settings: The start time of the first operating period is 8:00, the end time is 22:00, fragrance spraying time is 10 seconds, fragrance pause time is 120 seconds. There are no settings for the second, third, fourth, fifth, and sixth operating periods.
6. Long press the DOWN button for 5 seconds to lock the machine, displaying a lock icon. Long press the DOWN button for another 5 seconds to unlock the machine, and the lock icon disappears.
7. Long press the UP button for 5 seconds to turn off the fan, making the fan icon disappear. Long press the SET button for 5 seconds to turn on the fan, displaying the fan icon. (This function is ineffective for models without a fan.)
8. Press the DOWN button to enter the test mode. The device will forcibly start and work for 8 seconds.

User Manual for App Usage:

1. Scan the QR code on the cover of manual or on the back of the machine to download and install the app.
2. Open the Scent Diffuser smart app interface and click on the WiFi icon (as shown in image 1).
3. Click to search for the device (as shown in image 2)
